For several hundred years, Japanese porcelain has been highly acclaimed and sought after around the world. Sophisticated porcelain ware has long been produced in the Arita area of Kyushu, and artisans from the Kakiemon family have gained particular renown for their skill in enamels and their artistic designs. Now, for the first time, the techniques and tradition behind the creation of their ceramic works are disclosed through the words of the late Kakiemon XIV. Starting with his childhood memories, he talks about his father and grandfather and what he inherited from them; how the craftsmen work at the kiln; and how materials such as stone, clay, and firewood play a crucial part in creating the works. Most striking of all are the explanations of aka-e overglaze enamels and nigoshide porcelain, the characteristics that make Kakiemon ware so phenomenal. With more than twenty color plates depicting Kakiemon pieces from museums and private collections, this volume provides rare insight into one of the world's most famous kilns.

variety of records, such as studio, live, solo, and off-shot. A photo book
commemorating the 40th anniversary of the formation of ymo.

Yellow Magic Orchestra(YMO) are a Japanese electronic music band formed in
Tokyo in

1978 by Haruomi Hosono(bass, keyboards, vocals), Yukihiro Takahashi(drums, lead vocals) and Ryuichi Sakamoto(keyboards, vocals). The group is considered influential and innovative in the field of popular electronic music. They were pioneers in their use of synthesizers, samplers, sequencers, drum machines, computers, and digital recording technology in popular music, and effectively anticipated the "electropop boom" of the 1980s. They are credited with playing a key role in the development of several electronic genres, including synthpop, J pop, electro, and techno, while exploring subversive sociopolitical themes throughout their career.

The first fully bilingual monograph of this artists' collective established in Tokyo in 2005, 'We Don't Know God' shows how the five men and one woman who are Chim & Pom have never limited their actions in the Japanese context. Frequent travellers, they have worked in places around the world to confront global challenges in their own ways, creating remarkably audacious and inventive, often playful and satiric, intervention projects to negotiate with the different social and political conditions they encountered. They have also experimented in producing informal artistic and architectural projects, which derive from the legacy of Japanese post-war avant-garde movements.

Rinko Kawauchi created this nostalgic, serene series of images for French fashion brand agnès b. Featuring her daughter Kaoru, soon to be seven, Kawauchi reminisces about her own childhood, her process of growing up, and the future that lies ahead for the young girl. In the second half of the book Kawauchi looks back at her own life at that age, dressing her daughter in a red cardigan as a visual link to memory. A dialogue that has connected parents and children for generations unfolds. In a tender afterword, she writes to her childhood self, "In 40 years, you will be enjoying life with your daughter. And though it took time to get to this point, it was all worth living for".

Gold mask / Edogawa Rampo
[湯前町 (熊本県)] : Kurodahan Press, 2019
219p ; 21cm
9784909473066
\$ 30.00

Gold Mask is Edogawa Rampo's sixth novel featuring detective Akechi Kogorō, as he investigates the crime spree of the uncanny costumed "Gold Mask." Lovers of crime fiction will be delighted to discover that this resourceful thief, confounding Akechi's every move, is none other than Maurice Leblanc's famous "gentleman burglar," Arsene Lupin! Given Lupin's obvious influence on Rampo's own Fiend with Twenty Faces, this work serves as a fascinating precursor to his Boy Detectives series, and marks another major step in the development of Japanese detective fiction in the period between the Wars.

The novel was originally published as a newspaper serial in 1930-31, and has since been collected and released by a variety of publishers, including a revised children's edition from Poplar as part of the Boy Detectives series and in the definitive Kobunsha edition of Rampo's complete works, on which this translation is based.

Vampiric : tales of blood and roses from Japan
[湯前町 (熊本県)] : Kurodahan Press, 2019
236p ; 21cm
9784909473004
\$ 30.00

Japan has always had its own vampire tradition, and has eagerly naturalized Western vampires and vampire literature to produce exotic new hybrids and species of horror, of terror, and of sensual, exquisite beauty. Here are a few of their masterpieces.

The Japanese word for vampire is *kyūketsuki*, which translates literally to "blood-sucking monster," but the literary tradition is far, far more complex. The practice of Buddhism permeates Japan, and burials are almost always by cremation... leaving the Count and his relatives with no coffins to sleep in! But there is more than one way to sip a little blood, as these authors reveal. Thanks to Bram Stoker, Christopher Lee, and countless others who have popularized the Western vampire, modern Japanese authors have an extensive range of traditions and tales to weave into their own creations.

The sheltering rain / Hanmura Ryō
[湯前町 (福岡県)] : Kurodahan Press, 2019
181p ; 21cm
9784909473509
\$ 30.00

A diverse cross-section of Japan passes through the bar Lui, and the bartender tends to them all, with all their hopes and their fears. Underneath the black suits—whether crumpled or designer—and the cosmetics, they're all people on the way to somewhere else in Tokyo's glittering boom era. The bartenders and Mama-sans who keep everything running smoothly rely on their own camaraderie, night after night.

Winner of the 1975 Naoki Prize.

This work originally appeared as a series of short stories in various magazines from 1973–74, later compiled into this book as *Amayadori*, with the subtitle "Shinjuku baka monogatari," which could be roughly translated as "Tales of Shinjuku naifs." Written while Japan was close to the peak of the post-War economic boom, Hanmura captures the "economic animals" of Japan, and the countless men and women in their periphery who kept the bars and cabarets running all night long to let them blow off steam.

Japan of the 21st century is vastly different, and Hanmura's depiction of a very different era is still popular among those who fondly remember "the way it used to be." While the settings have changed and smartphones provide new modes of interaction, the same archetypical salesmen, bartenders, and bargirls still haunt the night spots of Tokyo, searching for something better.

Five women of various ages face, each in her own way, what seems to be the deterministic trap of Fate: a freshman in a girls' boarding school with the strange ability to share other people's dreams; a young woman in a straitjacket, desperately trying to locate a very particular future; a middle-aged skier refusing to be just a puppet on a string; an elderly fortune-teller with insufficient faith in her own trade; finally, an old lady whose very precious alarm clock is suddenly broken. And engulfing all of them, a strange mist through which no-one can see clearly...
