Time in Indian Music : Rhythm, Metre, and Form in North Indian Rag Performance

Author : Martin Clayton

Time in Indian Music is the first major study of rhythm, metre, and form in North Indian rag, or classical, music. Martin Clayton presents a theoretical model for the organization of time in this repertory, a model which is related explicitly to other spheres of Indian thought and culture as well as to current ideas on musical time in alternative repertoires?including that of Western music. This theoretical model is elucidated and illustrated with reference to numerous musical examples drawn from authentic recorded performances, many of which can be found on the accompanying

CD. These examples clarify key Indian musicological concepts such as tal (metre), lay (tempo or rhythm), and laykari (rhythmic variation). "More generally, the volume addresses the implications of cognitive processes for the organization of musical time, and the relationship between performance practice, theoretical speculation, and the organization of rhythm and metre. Written in a clear and accessible style and illustrated with 102 music examples and diagrams, it will appeal to anyone interested in Indian aesthetic forms and the study of musical time.

Rhythm, A Dance in Time (CD Included)

Editor : Elisabeth Den Otter

Published in conjunction with an exhibition at the Tropenmuseum, Amsterdam December 1999 - January 2001, this volume takes on the challenge of exhibiting rhythm in an ethnographic museum setting. The theme is set around the question: What does rhythm do with people and what do people do with rhythm? Among the contributions are: The source of creation in Balinese music; An Indian approach to rhythmic diversity; A Bamana masquerade in Mali; The Tambu of Curacao; Becoming a Tambour in the Basle Carnival. This exhibition highlights the multiple cultural heritage in Dutch society, and provides a penetrating insight to the role of music and rhythm in various societies.

Romance of the Raga

Author: Vijaya Moorthy

The place of the Raga in Indian Classical Music is indeed unique. Romance Of the Raga is an attempt to outline the evolution and perspective, as also the sheer variety and distinct styles, of this powerful and enthralling medium of spiritual and aesthetic form of musical expression.

It provides a glimpse into the variety of techniques and styles that are employed for presentation of the Raga and highlights the significant contribution made by some of the shapers of India's musical destiny towards the enrichments of both the systems : Hindustani and Karnatak.

The work also portrays the predominant characteristics of inner dynamism and resilience, as also the unlimited potential , amazing elasticity and the power of assimilation of the Raga as a medium of creative musical expression. Further, the variety and range of Musical instruments and confluence of Indian Classical Music and Miniature Painting have been illustrated with a view to enunciating the all-important aspect of the thematic content of the Raga.
