Compendium of the Economically Important Seashells in Panay, Philippines / Liberato V. Laureta

Quezon City: The University of the Philippines Press, 2008

xii. 147p,; 22cm

ISBN-13: 9789715425766

1. Shells – Philippines – Panay
2. Shells – Philippines – Panay – Identification

\$ 39.50

With more than three hundred photographs in full color, the book is a vivid and informative encyclopedia of seashells in the natural world. The unique combination of photographs and the comprehensive and concise accounts of the different species make this book a valuable reference material. It is undoubtedly a welcome addition to the limited literature available in the field of seashell taxonomy and ecology in the Philippines. It can serve not only as an introductory book for students in marine biology, fisheries, aquatic fauna, or related areas but also as a guide for researchers working on different marine habitats of the Philippine coastal areas.

After the Romance: Communities and Environmental Governance in the Philippines / Karin L Gollin & James L Kho (Eds.)

Quezon City: Ateneo de Manila University Press, 2008

China's Water Challenges

Manila: Asian Development Bank, 2006

1 DVD (23 Min)

All Region Coded

\$ 19.95

China's Water Challenge looks at three examples of the country's commitment to developing its water sector in Shanghai, Gansu Province, and the Yellow River basin, Major investments are being made in rural and urban water services as well as in river basin management to save water, protect against floods, clean up pollution and provide safe drinking water.
