[Modern Indian Theatre brings together critical essays, excerpts, and theoretical and political statements that reflect upon the changing visions for theatre since the late nineteenth century. Representing a wide spectrum of perspectives including those of playwrights – directors themselves, important voices in theatre criticism and history, practice, and direction, the articles reveal the multifaceted, hybrid, and contested formations of modern Indian theatre.]

The dramatic genre of the horse dance (jaranan) is part of an age-old Javanese tradition displaying wide local and regional variations. A striking feature of the performances of the majority of horse dance groups is the appearance of trance dancers. These are used as a means of establishing contact with the spirits of the ancestors, who continue to play an important part in the lives of their descendants as moral beacons in the solution of problems and the fulfillment of wishes.
