Christian Encounters with Chinese Culture : Essays on Anglican and Episcopal
History in China / (Ed) Philip L. Wickeri

Written by a team of internationally recognized scholars, *Christian Encounters with Chinese Culture* focuses on a church tradition that has never been very large in China but that has had considerable social and religious influence. Themes of the book include questions of church, society and education, the Prayer Book in Chinese, parish histories, and theology. Taken together, the nine chapters and the introduction offer a comprehensive assessment of the Anglican experience in China and its missionary background.

Historical topics range from macro to micro levels, beginning with an introductory overview of the Anglican and Episcopal tradition in China. Topics include how the church became embedded in Chinese social and cultural life, the many ways women's contributions to education built the foundations for strong parishes, and Bishop R. O. Hall's attentiveness to culture for the life of the church in Hong Kong. Two chapters explore how broader historical themes played out at the parish level—St. Peter's Church in Shanghai during the War against Japan and St. Mary's Church in Hong Kong during its first three decades. Chapters looking at the Chinese Prayer Book bring an innovative theological perspective to the discussion, especially how the inability to produce a single prayer book affected the development of the Chinese church. Finally, the tension between theological thought and Chinese culture in the work of Francis C. M. Wei and T. C. Chao is examined.

Samkhya, the most ancient of Indian philosophical systems has been most widely referred to and least closely studied in Indian philosophy mainly because its early source-books are lost. The author has gone through the texts of Mahabharata, Bhagavata Purana, Caraka Samhita, Buddha Carita, Ahirbudhnya Samhita to trace the Samkhya ideas. These ideas have been most diligently compiled and cogently presented by the author. It is based on analysis of various texts and writings and discourses of Acharyas emanating from their living spiritual experience. This makes the book authentic, explicit and vibrant. This treatise on Samkhya is reflecting rare facets of Samkhya correlated to culminating in yoga. This subject less known will find its own place to the genuine reader and to the serious student of yoga. Samkhya is unfolded as a path-philosophy like Buddhism and Jainism and yoga technique of spiritual realization is essentially grafted on its metaphysical superstructure.

This book is about the history of the people of Palau under the foreign occupying and ruling nations to independent nation of Palau is being told by someone who was a part of the struggle from the colonial setting of the US Trust Territory to the Independent Republic of Palau which summarily touches on previous colonial occupation of the Island by Spain, Germany and Japan. The writer was involved in the historical exercise of self-determination of the people of Palau at the time when the people of Micronesia were granted the right to determine their future political status from the United States Trust Territory as one political entity created after the World War II.

Admiral Cornelis Matelieff de Jonge was a Director in the Rotterdam chamber of the Dutch East Indies Company (VOC) for three decades in the early 17th century. In May 1605 he set sail from the Dutch Republic with a fleet of 11 ships, and in the following year launched an unsuccessful attack on Portuguese Melaka. After visiting various locations in the region and signing landmark treaties with the rulers of Johor (1606) and Ternate (1607), he returned to the Netherlands in 1608. There he wrote a series of epistolary reports and memoranda that were carefully studied by leading policy makers in the Republic, among them the renowned jurist Hugo Grotius, and the politician and diplomat Johan van Oldenbarnevelt.

Early VOC policy for south-eastern Asia drew heavily on Matelieff's submissions, and the materials reproduced in this volume provide candid insights into key elements of VOC strategy, trade, security and regional diplomacy, as well as Dutch relations with Spain and Portugal. Here translated into English for the first time, this collection of Matelieff's writings is an invaluable resource for students of business history, early colonial history, and the history of international law.

This is not a story of personal achievements and failures. It is more an attempt to bring to life the marvellous variety of people whose lives have touched mine. If in writing these memoirs I succeed in arousing in my readers a fraction of the interest and pleasure that I have enjoyed through contact with my family and friends, then I have also succeeded in paying the tribute that I owe to these dear people, most of whom have by now gone ahead before me.
