The Family Law Reports of Nigeria (FLRN), other than dissolution of marriages, addresses issues that pertain to inheritance; child custody; property and land rights including the coverage of the Islamic Family and Islamic marriage, dissolution and inheritance which is seldom seen in mainstream law reports and is of great importance.

The law report covers all the relevant landmark judgments of the commendable Nigerian Judiciary in this area. The alphabetical arrangement of the subject-matter and hosting of all decisions and principles related thereto under the headings, legal maxims and cross-references to other law reports are provided for easy reference. The terms and principles are neatly arranged in the glossary thus making the search quick and convenient.

The Family Law Report of Nigeria would not only be beneficial in Nigeria, but also will be immensely helpful for other Nations and people in the Commonwealth and the World as a whole.
