Talk to Me in Cantonese / Betty Hung
Hong Kong University Press, Hongkong 2019

Talk to Me in Cantonese is a comprehensive and self-paced textbook tailor-made for English-speaking learners with a basic knowledge of Cantonese. It consists of 10 lessons, each covering a real-life situation using dialogues and stories. Through systematic explanations of the grammar and sentence patterns introduced in the text, readers are able to acquire crucial grammatical structures needed to express themselves fluently and precisely. Each lesson reinforces grammar usage with a review and a wide variety of exercises. The Cantonese pronunciation practice in Appendix 1 serves a dual purpose: it exposes the reader to the richness of the Cantonese language by using slang and colloquial expressions to practise every element of Cantonese pronunciation.

This book is a sequel to A Cantonese Book, a popular textbook designed for beginning-level learners. Since there are very few books that help teach anything beyond survival Cantonese, Talk to Me in Cantonese is suitable for anyone who wants to continue their study, no matter what text they used to start with. The book is enhanced by downloadable audio files by native speakers for all dialogues, stories, vocabulary items, and grammatical practices in the text.

Colonialism and Knowledge in Grierson's Linguistic Survey of India / Javed Majeed

This book is the first detailed examination of George Abraham Grierson's Linguistic Survey of India, one of the most complete sources on South Asian languages. It shows that the Survey was characterised by a composite and collaborative mode of producing knowledge, which undermines any clear distinctions between European orientalisks and colonised Indians in British India. Its authority lay more in its stress on the provisional nature of its findings, an emphasis on the approximate nature of its results, and a strong sense of its own shortcomings and inadequacies, rather than in any expression of mastery over India's languages.
